

Cadex Sling Mount

The Cadex sling Mount CSM provides shooters with a versatile mounting system permitting great flexibility in configuring their weapon sling according to their requirements.

Its versatility permits the user to employ any of four methods of attaching slings to their weapons, as well as having the option to vary the location of the sling attachment point.

Sling attachments that can be used are:

- passing the sling through the sling loop
- HK hooks and similar quick release devices
- push button type quick release sling swivels
- locking type sling swivels for sling studs

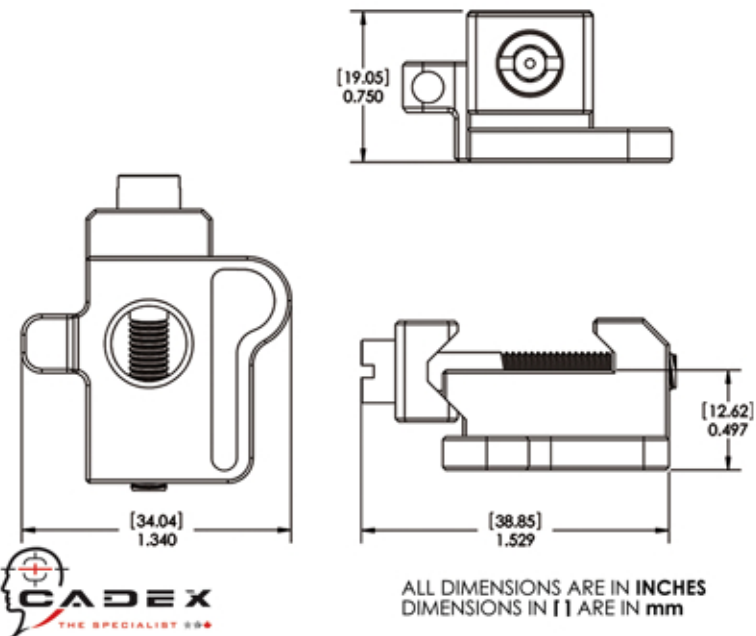

The Cadex Sling Mount can be securely fastened at any location where the user has a M1913 or Weaver style rail.

Specifications

Material :	6061-T6 Aluminum
Weight :	23 Grams, 0.82 Ounces
Interfaces :	Any M1913 or Weaver-style rail
Colors :	Anodized Black

Dimensions

As well as its operational flexibility, it is economical.

Agencies do not need to purchase additional sling mounts for four different attachment methods; they can continue to use existing sling swivels with the CSM.
