

## BREACHING HAMMER

The Cadex Telescopic Breaching Hammer is one of the most powerful breaching tools available. Through its telescopic design, the tool is very compact to carry; when it is needed it can be used collapsed or extended.

A combination of breaching hammer, Halligan tool, hinge breaker, and expedient ram, the Cadex Telescopic Breaching Hammer provides superior capabilities over traditional single use tools, while providing the ability to be used in conjunction with other entry tools.

The Cadex Telescopic Breaching Hammer strikes hard and is built to provide long service to the operator; the hammer head is hardened to rockwell c 40-45, which will minimize the amount of spalling, thus increasing service life. The handle release mechanism designed to never fail during the service life of the hammer.

Operation of Cadex Telescopic Breaching Hammer is simple; the telescope mechanism is functioned with the operator's hand that is controlling the hammer end of tool.

This tool is designed and manufactured by Cadex and is produced of the highest quality materials, its release mechanism will stand up to years of hard use.
