The CDX-X145 is our latest design anti-material sniper rifle. Chambered in 14.5x114mm, this amazing rifle is capable to deliver an impressive payload at extreme distances when combined with match grade ammunition.

The lack of quality ammunition in 14.5x114mm is a problem now resolved by a partnership with two of the most renowned superior quality ammo makers on the planet. These two partners are offering a wide selection of ammunition capable to pierce some of today's toughest vehicle armor.

FEATURES AND SPECIFICATIONS

CHASSIS

- New Xtreme chassis platform built from a rock solid single piece aircraft grade aluminum billet.
- Battle proven reverse folding stock mechanism with free-play adjustable hinge system to remove loosening that may develop over time.
- New X-series tool-free fully adjustable buttstock and neoprene cheek rest.
- 20 MOA top rail with optional NVD bridge.
- M-LOK fore-end tube capable to adapt various Picatinny rails and accessories.
- Unique recoil absorption bipod system to reduce the muzzle rise and improve tracking on follow-up shots.
- Carry handle mounted at the center of balance of the rifle.

ACTION

- New CDX-X145 custom grade bolt action repeater made from 416 stainless steel, 2.400" diameter receiver.
- DLC coated 4 lug spiral fluted bolt with ultra-fast 50° bolt throw.
- Standard round bolt knob (optional tactical bolt knob also available separately).
- ¼ turn tool-free bolt disassembly for an easy access to the firing pin.
- Ambidextrous 3 position safety lever on shroud.
- Equipped with our DX2 Evo single/double stage convertible trigger.

BARREL

- Bartlein 2.200" straight taper fluted match grade barrel with single point cut rifling technology.
- 8 groove 40" long barrel for extended range application.
- New MX3-ST muzzle brake design to reduce the recoil of this extremely powerful caliber.

ACCESSORIES

- Design to accommodate SSSF 4 round magazine (MAG145).
- Shown with our Falcon bipod, ski feet, ELR bag rider and scope mount (available separately).
- Riflescope not included.

COLORS

- Cerakote non-reflective coating.
- Available in more than 35 color configurations.
